PROFESSIONAL SUMMARY

Front-end web designer specializing in clean, responsive websites for small businesses and service-based brands. Focused on clarity, structure, and conversion-driven layouts that communicate trust and professionalism. Comfortable managing projects independently from concept through deployment.

CORE SKILLS

- HTML5 & CSS3
- Responsive & Mobile-First Design
- UX Structure & Visual Hierarchy
- Conversion-Focused Layouts
- GitHub & Version Control
- Netlify Deployment & Hosting
- Basic SEO Structure
- VS Code & Workflow Management

PROJECT EXPERIENCE

- **Small Business Website – Nail Salon:** Designed and developed a modern, mobile-responsive website structured around service clarity and booking conversion.
- **Service-Based Website – HVAC Company:** Built a credibility-driven website optimized for fast contact access and strong call-to-action placement.
- **Therapist Landing Page (Concept Project):** Created a luxury private-practice website concept focused on emotional tone, structured UX, and mobile performance.
- **Personal Portfolio Website:** Developed a modern, minimal portfolio site showcasing responsive layouts and structured UX design.
